# New Mini Coax Support Block for LMR-400 Cable Available From Times Microwave Systems

Times Microwave Systems has recently announced the availability of the new **CB-400T** mini coax support block for LMR-400 flexible low loss 50 Ohm coaxial cables. These high quality support blocks utilize a 2-piece dual support configuration to accommodate two cables side-by-side and they can be conveniently stacked. Installation is easily accomplished using any of the standard threaded rod mounting hardware kits available from Times Microwave.. Constructed of durable long glass black polypropylene, the **CB-400T** mini coax support blocks are UV and sunlight resistant to stand up to the rigors of extended outdoor service. Also available are mini coax support blocks for LMR-600, 900, 1200 and 1700.

| <u>Part Number</u> | <u>Quantity Per Package</u> | <u>List Price</u> |
|--------------------|-----------------------------|-------------------|
| CB-400T            | 10                          | \$20.00           |
| CB-600T            | 10                          | \$20.00           |
| CB-900T            | 10                          | \$24.00           |
| CB-1200T           | 10                          | \$28.00           |
| CB-1700T           | 10                          | \$34.00           |

## About Times Microwave Systems

Times Microwave Systems has over 60 years experience in designing innovative, high-reliability, coaxial cables and assemblies for demanding interconnection problems. An engineering oriented organization, the company specializes in the design and manufacture of high performance flexible and semi-rigid coaxial cable, connectors, and cable assemblies for RF transmission from HF through microwave frequencies as well as lightning and surge protection products.
