## **New *Advantage*<sup>™</sup> Type 716 DIN Straight and Right Angle EZ No-Solder Connectors for LMR<sup>®</sup>-400 and LMR<sup>®</sup>-600 cables now available from Times Microwave Systems**

The Times *Advantage*<sup>™</sup> connector line has been extended to include four new type 716 DIN straight and right angle EZ no-solder connectors for LMR-400 and LMR-600 cables:

	<u>List Price/each</u>
<b><i>EZ-400-716M</i></b> type 716 DIN EZ no-solder pin male straight (3190-2524)	\$25.00
<b><i>EZ-400-716M-RA</i></b> type 716 DIN EZ no-solder pin male right angle (3190-2545)	\$30.00
<b><i>EZ-600-716F</i></b> type 716 DIN EZ no-solder pin female straight (3190-2447)	\$25.00
<b><i>EZ-600-716M-RA</i></b> type 716 DIN EZ no-solder pin male right angle (3190-2546)	\$30.00

All connectors feature:

- For the first time, NO braid trimming needed after cable prep (except the EZ-600-716F still requires braid trim)
- No soldering required on the center conductor
- Combination hex/knurl coupling nut—allows tightening by hand or with a wrench
- Tri-metal plating instead of silver plating—eliminates tarnishing, while providing superior electrical performance
- Chamfered cable entry hole for ease of termination
- Ridged landing area on the aft end for better grip and sealing of the heat shrink boot—to provide improved strain relief and weather sealing
- Enhanced impedance matching to provide superior VSWR performance

**Advantage™** connectors are currently available for **LMR®** cables ranging from LMR-195 through LMR-600. **Advantage™** connectors include **EZ** (no-solder) and solder versions and both crimp and simple 2-piece clamp styles.

**LMR®** cables are low loss, flexible, non-kinking RF transmission line cables that utilize easy-to-install connectors and are suitable for use as antenna feeders, system jumpers and interconnects.

#### **About Times Microwave Systems**

Times Microwave Systems has over 60 years experience in designing innovative, high-reliability, coaxial cables and assemblies for demanding interconnection problems. An engineering oriented organization, the company specializes in the design and manufacture of high performance flexible and semi-rigid coaxial cable, connectors, and cable assemblies for RF transmission from HF through microwave frequencies as well as surge arrestors for the protection of RF equipment.
