Times Microwave Systems adds the LP-GTV-T series of Lightning Protection Products for RF Communication Networks

Times Microwave Systems introduces the new *Times-Protect*[®] LP-GTV-T series of DC pass RF lightning and surge protection products with an extended frequency operating band from DC to 7000MHz. This new bidirectional design with TNC and Reverse TNC type female/female and female/male connectors handles up to 150 watts of RF power and allows for up to 72 volts of DC voltage to be supplied on the center pin of the coaxial cable. The LP-GTV-T series is the perfect RF equipment protection solution for any application requiring DC voltage and current to power tower top mounted electronics. The LP-GTV-T product family is IP67 rated, suitable for outdoor as well as indoor installations and its white bronze plated housing ensures durability and long life.

LP-GTV-N Series:

- LP-GTV-TFF (TNC Female/Female connectors - 180Vdc/150W) \$33.00 list price
- LP-GTV-TFM (TNC Female/Male connectors - 180Vdc/150W) \$33.00 list price
- LP-GTV-RTFF (RTNC Female/Female connectors - 180Vdc/150W) \$33.00 list price
- LP-GTV-RTFM (RTNC Female/Male connectors - 180Vdc/150W) \$33.00 list price

About Times Microwave Systems

Times Microwave Systems has over 65 years experience in designing innovative, high-reliability, coaxial cables and assemblies for demanding interconnection problems. An engineering oriented organization, the company specializes in the design and manufacture of high performance flexible and semi-rigid coaxial cable, connectors, and cable assemblies for RF transmission from HF through microwave frequencies as well as surge arrestors for the protection of RF equipment.
